# CAMAC WARRANTY

Camac warrants products\* \*\* of its own manufacture will be free from defects in raw materials and manufacture under normal use and service for a period of not more than one year after date of shipment. Camac's obligation under this warranty is limited to repair or replacement of its products which shall be returned to Camac's headquarters, with all transportation and associated charges prepaid, and which examination shall disclose to Camac's satisfaction to have been thus defective at time of shipment, provided that Camac had received immediate written notice upon discovery of such alleged defect and the alleged defective products shall have returned to Camac not later than 60 days after Camac has issued a Return Authorization Number. This warranty shall not apply to any of the products which shall have been used other than for their intended use, nor to any of the products, the composition of which shall have been changed in any way, nor to any of the products which have been subject to adverse storage conditions, misuse, negligence or accident.

Camac shall not be held liable for damage or delays caused by defective raw materials and manufacture, nor shall Camac be liable for consequential damages in cases of failure to meet the conditions of warranty. The full liability of Camac under this clause is the repair or replacement of defective parts, at its discretion.

The customer is responsible for the proper installation and operation of the equipment.

\*Products such as filter cartridges do not normally last one year and may require frequent replacement. In addition, certain components such as mechanical seals, springs, "O"-rings, hose, ceramic liners, impeller magnet assemblies, etc. may be subject to wear and, therefore, wear should not be construed as evidence of the existence of a defect, and as such will not be honored in a warranty claim, nor should it be inferred that items such as these will last a year without occasional, or even frequent, replacement depending upon the severity of the application. Items not of Camac's manufacture, such as motors, carry similar warranties by the manufacturer, and can often be serviced through local authorized repair center or handled through our office.

\*\* Heat Exchanger Warranty specifically excludes corrosion of stainless steel or other metals normally used in the fabrication of the Equipment from its warranty. Camac is not liable for loss or damage due to corrosion from exposure to aggressive liquids or atmospheres. Nor shall Camac be held liable for User's failure to properly clean or care for this Equipment.

**This express warranty is given in lieu of all other warranties. All other warranties and, specifically, the implied warranties of merchantability and fitness for particular purposes, are excluded.** No person, agent or representative of Camac is authorized to give any other warranties on Camac's behalf or to assume for it any other liability in connection with any of the products.

 **WARNING** - Any modification, alteration or other changes to Camac's products will void any warranty and could cause damage or injury to the user of the products.
